ANNOUNCEMENTS.

FOR COUNTY JUDGE.

We are authorized to announce Henry
DeHaven Moorman as a candidate for
County Judge of Breckenridge county, sub-
ject to the action of the Democratic party.

FOR STATE SENATOR.

We are authorized to announce "R. W.
Owen, of Hancock county, a candidate
for State Senator from this, the 10th district,
composed of the counties of Hancock,
Breckenridge and Meade, subject to the
action of the Democratic party.

FOR REPRESENTATIVE.

We are authorized to announce Selby H.
McCracken as a candidate for Representa-
tive from Breckenridge county, subject to
the action of the Democratic party.

If you have heart disease get mar-
ried. It is a sure cure.

Parker ought to send another gold
telegram. Maybe it would revive 'em
some more.

It is mighty hard to make a rousing
Democratic speech with one foot on
the Republican platform.

Dr. Milton Board looks just as big
as any of 'em around Democratic head-
quarters at Seelbach's. There is noth-
ing that succeeds like success.

Carrie Nation is going over to New
York to make a raid on Bishop Pot-
ter's subway tavern. Carrie is no
responder of persons in the saloon
business.

You had better look up the law on
the subject of registration if you live
in an incorporated town, or you
may not be able to help either Par-
ker or Roosevelt in November.

The two-story residence being erect-
ed on the lot at the corner of Main
and Second streets for J. C. Nolte by
the Cloverport Real Estate & Improve-
ment Company, is one of the hand-
somest built in Cloverport in recent
years. The residence is very artistic
from the architect's viewpoint. J. M.
Lewis is the contractor.

Men coming from the South say
that section is on the verge of the
biggest boom it has ever known, and
it had a pretty good boom from 1898
to 1902. Ten-cent cotton is working
wonders in the South. The Southern
steel mills are expecting that the next
few years will set them far ahead
of their previous high-water mark in
that industry.

A company is building a plant at
River Side Park, near Louisville, for
the manufacture of a cement to be
used for building material. The idea
is anything but new, and houses thus
constructed are not satisfactory, says
the Hawesville Plaindealer. The
Spaniards used a like material in the
building of their forts just after the
discovery of America. Two of them
are now standing near St. Augustine,
Florida.

The Democratic Campaign com-
mittee will have 1,200 speakers on the
stamp in Kentucky during the presi-
dential campaign this fall. Many of
the speakers will deliver a large num-
ber of speeches. The list includes Gov.
J. C. W. Beckham, Senators J. C. S.
Blackburn and James B. McCreary,
Judge Matt O'Doherty, Col. Bennett
H. Young, Charles K. Wheeler, Lewis
McQuown, David H. Smith, South
Trimble, John R. Allen, Charles J.

Bronston, W. P. Kimball, H. V. Mc-
Chesney, G. G. Gilbert, James N.
Kehoe, R. Peak, A. O. Stan-
ley, J. S. Morris, Morgan Chinn,
John L. Grayot, John K. Hendrick,
F. A. Hopkins, George E. Stone and
W. T. Ellis.

There is a striking resemblance
between Senator McCreary and Judge
Milton Board. The Senator is not
near the speaker that Judge Board
was in his palmy days. He hasn't
the fire nor the enthusiasm of Judge
Board. We remember the time
when the Judge used to fire the
Democrats with such enthusiasm that
they would shake that old court-
house from foundation to roof with
their Democratic yells. Senator Mc-
Creary as big a man politically as
he is, didn't do it last Monday. What's
the cause of all this coolness and in-
difference? Has Democracy changed?
Is there no life in the old party? Has
it lost its moorings and strayed off to
strange climes and strange gods? There
is something wrong somewhere.
Democracy is not what it used to be.

DICK OWEN THE MAN.

"The leading Democrats of Union
Star are unanimous for Dick Owen for
senator. They say he is a home man,
they all know him, and like him,
and have no reason for not supporting
him for the office."—Breckenridge
News.

And every place you go in the dis-
trict the people think well of Dick
Owen. They like him and many of
them are for him. Above all, there
is beginning to be a realization of
justice in the Clarion's claim for the
next Senator from Hancock county.
Each of the other counties have had
a term and no man can successfully
deny the justice of our claim. We are
exceedingly proud to see that Breck-
enridge county is inclined to stand
solidly for Hancock's rights. Hereto-
fore we have rendered assistance to
Breckenridge and we shall not fail to
do so again.—Hancock Clarion.

The Breckenridge News says that
mosquitoes in Cloverport are using
can openers to make incisions in their
victims. They may have learned this
effective means of blood getting from
Federal office holders who are insert-
ing a sharp request for campaign
contributions into the quivering
employes.—Louisville Times.

This is the biggest one the Times
ever told. The News hasn't mention-
ed mosquitoes this summer, in fact
we've had no occasion to do so. They
haven't bothered us. We don't live
in a mosquito latitude. The air is
too pure, our surroundings are clean,
pure and healthy and there's no at-
traction for mosquitoes. We don't use
can openers but can closers. If you
don't believe it just step down to our
canning factory. And, as to Federal
officeholders, we haven't but one in
town and he's the postmaster and a
loyal one, too. He pays his assess-
ments and never kicks. This is one
of the Times, misfit jokes.

Railroad managers' bank presidents and
business men generally are calculating
on a continuance of the present pros-
perous conditions because crops are
good and prices for farm crops are
good, with rising tendencies. Keep the
farmers prosperous and this country
cannot have hard times.

It matters not how expert farmers
become in producing grain, fruit or fat
stock, some new form of exploitation
will be discovered by the class of
people who live on their wits and pro-
duce nothing to relieve them of every-
thing but a bare living. They may
get ahead some years only to slip back
other years. This will be kept up until
they make their own prices.

Exhaustion of fertility in our farm
land is responsible for more crop failure
and short yields than farmers realize.
We believe this country will never take
its former enviable place as exporter of
grain until the average yields of our
grain crops are increased. The increas-
ing consumption of our own country
will come pretty near consuming all we
can produce. Better prices will soon
remedy this, however. We know many

farmers have only been waiting for the
time when the price of grain will war-
rant them in buying fertilizer.—Up-To-
Date Farming.

There is more Catarrh in this sec-
tion of the country than all other
diseases put together, and until the
last few years was supposed to be
incurable. For a great many years
doctors pronounced it a local disease
and prescribed local remedies, and by
constantly failing to cure with local
treatment, pronounced it incurable.
Science has proven catarrh to be a
constitutional disease and therefore
requires constitutional treatment.
Hall's Catarrh Cure, manufactured by
F. J. Cheney & Co., Toledo, Ohio, is
the 'only constitutional cure on the
market. It is taken internally in
doses from 10 drops to a teaspoonful.
It acts directly on the blood and mucous
surfaces of the system. They offer
one hundred dollars for any case it
fails to cure. Send for circulars and
testimonials.

Ohio.

pation.

PICKED UP.

Senator McCreary is a great cam-
paigner, with the babies. He can kiss
and fondle them as gracefully as any
man who ever offered for office. It
will do one good to see him take a
little one his arms, say some sweet
things to it, kiss it enthusiastically
and hand it back to its mother with a
smile. Of course this comes natural
with the Senator; he's been at it so
long.

There are a whole lot of Democrats
in Meade county who are going to
support Dick Owen for the Senate.
Gus thinks he has a walk-over in
his own county, but he is mistaken.

The Hon. D. H. Smith was at
Brandenburg last Monday. He did
not make a speech, simply there to
shake hands and joke with the boys.
Dave says this is his last race for Con-
gress. His next step is for the U. S.
Senate. If he fails in that he will
retire from politics. Dave don't get
any better looking, although Charlie
Bryant says he is the handsomest man
he ever saw. But when Charlie makes
a statement you are safe in saying it
is just the opposite.

Dr. Milton Board, of Hopkinsville,
was in Louisville last week. He had
been to Frankfort on business connect-
ed with the Asylum. The Doctor is
looking fine and says he is getting
along nicely down at Hopkinsville,
that he likes the place and enjoys it.
"I am coming home to register, and
to vote is about all the part I will
take in the campaign this year." Said
he supposed the county would give a
small Republican majority, as it always
does when there is no fight made by
the Democrats. As to the national
campaign, he knew very little; he
would support Parker, of course, and
from the tone of his remarks we in-
ferred that he had very little hope
of his election. He said: "You say look
out for a hot campaign in Brecken-
ridge next year. I will be on the
ground and make it hot for the boys.
We must make a clean sweep next
year." He had very little to say about
the Senatorial race, said both candi-
dates were good friends of his and he
would take no active part in the cam-
paign. Dick Owen being from
his own county, he said he would
have to support him.

THE WOMAN ON THE PEDESTAL.

In a recent number of Collier's Weekly, Richard Hard-
ing Davis gives a vivid description of the Yoshiwara of
Tokio, and pictures for us "The Ladies of the Golden
Screens," caged behind bars of iron like wild beasts. He
wonders "how a nation can advance as Japan is advancing
when its women hold so low and insecure a place."

"The American," he says "is used to placing his wo-
men folks on a pedestal." Ah, yes! So he is.

In many states to-day women are still standing on the
pedestal of the old English Common Law. Their property
belongs to their husbands; even the clothes they wear are
not their own in the eyes of the law. They cannot buy
and sell as single women can. Their wages belong to their
husbands and they cannot make a will.

We place our women on pedestals by opposing their
higher education, debarring them from the learned profes-
sions and relegating them to the kitchen and the nursery.
There are but nine states in the Union in which a married
mother has any right to the "custody, care and nurture" of
her own child. In the rest of the states mothers stand on a
pedestal and fathers have the legal right to manage the en-
tire life of their children, even to removing them wholly
from the "custody, care and nurture" of the mother.

In most of the states women are denied all participation
in the affairs of the government under which they live, and
they stand on a very lofty pedestal along with idiots, minors,
lunatics and criminals.

A pedestal is a good place for a statue, but a very poor
place for a live woman. Her place is on the common earth,
side by side with man, sharing his responsibilities, his privi-
leges and his rights. This is the sort of pedestal to which
women are slowly and surely climbing.
